# ABOUT US

---

Osool's specialist mechanical, electrical and plumbing services support the diverse needs of the commercial, residential, healthcare and education sectors. We use our expertise and creativity to drive, shape and enhance projects and we are particularly experienced in working with large scale, high value projects involving complex and sophisticated installations.

We deliver turnkey end-to-end solutions as well as services for any stage of a project. Using cost-clever, reliable and sustainable systems and technologies, including optimising our off-site and modular capabilities, we appraise, design, build, install, maintain and manage projects smoothly and constructively.

## 01 OUR VISION

### What Brings Us Together

Serving the welfare of the community at large through our strategies and actions in line with our commitment to deliver business efficiency.

## 02 OUR MISSION

### How We Work Together

To build a legacy of excellence and to be an ultimate solution provider with a reputation for expertise, quality and cost effective innovative systems.

## 03 OUR VALUES

### The Qualities We Embody

Customer Commitment, Quality, Integrity, Team Work, Respect for people, Personal accountability.

## 04 OUR PASSION

### Why We Come To Work Everyday

Passion with a purpose is the new fool proof formula for success. Passion for work is more important than engagement, it puts perfection in the work.

## WHAT WE DO

We enable innovation. From ideation all the way through to market delivery.

We provide client oriented professional services, based on international standards, codes, procedures and more a commitment for excellence.

# “FROM SMALL BEGINNINGS COME GREAT THINGS”

*“Osool Communications & Technical Systems, started by a young entrepreneur with a passion for technology.”*

*We provide end-to-end solutions in the field of information and communication technologies.”*

## SERVICES

---

01

### ELECTRICAL CONTRACTING

We are engaged in the installation, testing and commissioning of electrical equipments & systems.

## PLUMBING CONTRACTING

We can provide a wide range of turnkey solutions to meet your current and future needs.

02

03

## MAINTENANCE & TROUBLE

Osool is committed to performing annual maintenance for all installed CCTV cameras in order to check that these systems are operating properly. Not only this, maintenance is also promptly offered when CCTV cameras accidentally stop working.

## HOME AUTOMATION SYSTEMS

It involves automatic controlling of home appliances using different technologies and controllers over desktops, laptops, smart phones or tablets.

04

05

## SURVEILLANCE SYSTEMS

*We Will Be Your Eyes For Security*

Our cutting-edge engineering services enable us to bring to life any required design of CCTV cameras.

## SECURITY SYSTEM

### Access Controls & Gate Barriers

Our specialists can help you with the design, supply and installation of any desired access control and gate automation solutions.

06

07

## STRUCTURED CABLING SYSTEMS

### Building Your It Communication

Osool Technical System is a full-service network cabling provider with the resource to design and implement structured cabling. Providing network cabling services throughout a business involve cable laying, installation of connector-face plates, Network cabinets and Testing of cables.

## TELEPHONE SYSTEM

### We Change The Way Your Business Talks

Telephone service is the lifeline of business, as it provides a way for potential and current customers to reach out to the firm. By understanding the technologies involved in an office telephone system, it becomes easier to choose a system that is cost effective and adequately serves the needs of the company.

08

09

## TV SYSTEMS

### Have Your Own Cable Company

Distribution of program content within your facility can be accomplished using Community Antenna / Master Antenna / Satellite Master Antenna / Internet Protocol (CATV / MATV / SMATV / IPTV) distribution systems.

10

## FIRE FIGHTING

### Fire Detection and Alarm System

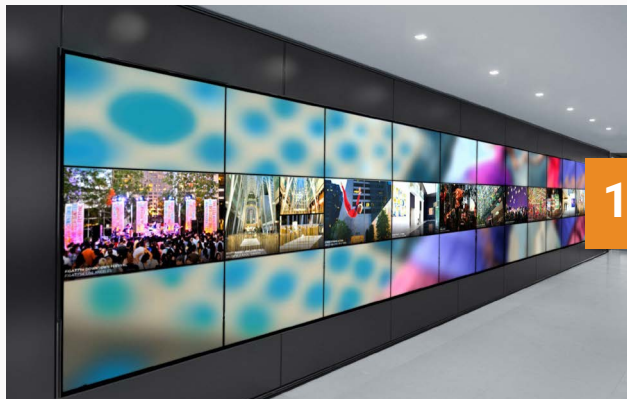

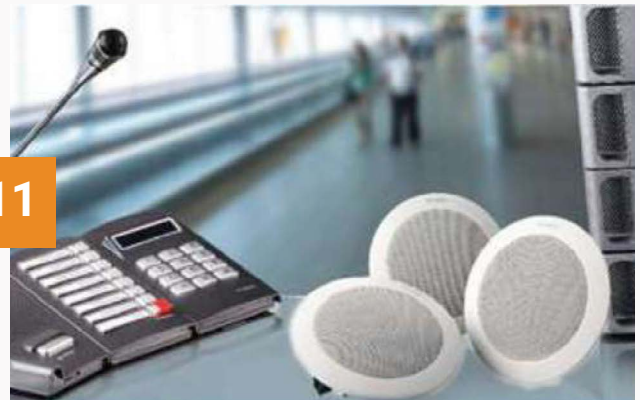

Accurate Installation and Maintenance of Fire and Safety Services.

## PUBLIC ADDRESS & AUDIO VISUAL SYSTEM

### Get Heard & Entertained

Having had years of professional experience in the industry, we are committed to providing unsurpassed services and value in the design installation of PA system solutions.

11

12

## DIGITAL SIGNAGE & VIDEO WALL SYSTEM

### See and Be Seen

Our solutions are equipped with high picture quality and performance perfect for advertisements, information and broadcast video.

## BUILDING MANAGEMENT SYSTEM

### Derivation Of Energy Saving

When integrated with various building systems such as heating, ventilating and air conditioning (HVAC) equipment, security access control systems and lighting, the optimum in energy efficiency and building management is derived.

13

A large, dark, minimalist interior space, possibly a modern office or gallery. The scene is dominated by a large, dark, rectangular area. In the center, a person is walking away from the viewer towards a bright, open area in the distance. Above the person, a large, dark, rectangular area contains a grid of light, suggesting a window or a light fixture. The overall atmosphere is dramatic and high-contrast. The text "Our prestigious Clients" is overlaid on the dark area in a white, serif font.
